REPORTING OF FIRE INSURANCE AMOUNT ON A QUARTERLY BASIS

The amount of fire insurance written on buildings, fixtures, machinery, goods, contents and movables, must be stated, cf. Underwriting guidelines for natural perils insurance of 1 March 2020.

Home insurance without any fixed amount of insurance shall be calculated as an average of NOK 998.755 for members of the Norwegian Federation of Trade Unions, and as an average of NOK 1.273.312 for the remaining home insurances without any fixed amount of insurance

For municipal and county municipal insurance, where machinery, inventory, and movable property are co-insured for up to the same value as the insured amount for the building. The company must multiply the latter amount by a factor of 1.25 to arrive at the amount to be reported to the Norwegian Natural Perils Pool.

Our company has been underwriting fire insurance in Norway since the following date:

.....

Our company's total amount of fire insurance to be included in the Norwegian Natural Perils Pool's settlement basis amounts to:

NOK															
-----	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

NB! The insurance amount must be stated in full of all digits in Norwegian kroner.

New members must report figures for the first year: as of 31.03, 30.06, 30.09, and 30.11.
